The Land Gate was built in 1708

, by the

French engineer, and succeeded

The gate was gradually demolished between 1894 and 1897.

Only a few of the gate's architectural structures have survived,

stone lion from the crown which is

Today,

the façade of the gate has been reconstructed

of its original form.

Basically, the structure of the gate is simple and is the symbol of the Venetian state. At this point there was a statue
